IRON DOOR HARDWARE

Handles and locksets add both an important aesthetic and functional accent to your door. Memphis Steel & Iron Works hardware is designed to furnish optimum security, safety and style while providing years of trouble-free service. Enhance your door and your home with Memphis Steel & Iron Works hardware.

Security

- ◆ ANSI Grade 2 rating provides greater security since the locking mechanism is inside the door
- ◆ All metal and brass construction, no plastic provides additional security
- ◆ Solid one piece lock housing for additional strength and durability

Performance

- ◆ Split spindles for a smooth, bind free operation even with minor misalignments
- ◆ Easy action latch with soft spring for easy closing and solid support to the door
- ◆ Deadbolt has stout spring to prevent credit card entry

Double doors require both an active and a dummy set
